

Financial Assistance at Kedren:

Our mission is to provide quality integrated health and behavioral health services to children, youth, adults, and families irrespective of immigration status, residency, language, culture, gender, ethnicity, religion, sexual orientation, or one's ability to pay. As a Federally Qualified Health Center (FQHC) and a baseline behavioral health provider contracted with the Los Angeles County Department of Mental Health (LACDMH), Kedren is committed to working with our patients through any financial issues, including finding ways to make primary care, and behavioral health care more affordable and accessible. If you are having trouble paying for all or some of your primary care and/or behavioral health care, we encourage you to talk with a Kedren Financial Counselor or someone in our business office about how we can help.

What Is Covered? For Specialty Mental Health Services (SMHS) at Kedren under the LACDMH Short-Doyle/Medi-Cal contract, all patients with NO, or Full-Scope Medi-Cal are covered 100% by the LACDMH, and no cost is billed directly to them. Patients with a Medi-Cal Share of Cost are assigned an Annual Liability, based on their income and number of dependents.

How to Apply? All special mental health patients are automatically covered 100% by the LACDMH contract with Kedren. No application is needed. However, all patients are subject to the financial screening process of the Uniformed Methods of Determining of Ability to Pay (UMDAP) by the Los Angeles County of Department of Mental Health and State of California.

Emergency Care: Kedren does not provide emergency medical or psychiatric services.
